Dear Parents/Guardians

RE: HEAD LICE

Head Lice have been reported in our year group.

Please check your child's hair tonight and, if you see any evidence of head lice, do not send him/her to school until you have treated the hair. All members of the household should be checked and treated *if* necessary at this time.

Regular brushing or combing of the hair is recommended at least twice a day, especially at bedtime.

Suitable lotions can be obtained on prescription, or from your chemist. Further advice is available from your School Nurse.

There are also aromatherapy preparations that many parents are pleased with. Further information can be obtained from www.nits.net/bugbusting, or via the 'Bug Busting' help line on 020 7686 4321.

Yours sincerely

Year 6 Team
