

PRINCIPAL'S NEWSLETTER

No 34- 13th March 2020

As there has been so much correspondence this week, I'm keeping this newsletter short!

Last night, you all received the letter regarding our processes around the coronavirus. Please rest assured that we are constantly monitoring and we will update you all as new guidance is released.

I recognise that the government's 7 day advice may impact on your child's attendance; this will be the same across all schools in the UK, and until we all get back to normal, our approach is to ensure the health and safety of our children, families and staff, so we will be following government guidance to the letter.

I really appreciate how supportive you have all been over this, and hope that the outbreak is quickly under control so that we can all get back to usual!

£2000 grant from our local councillor

We are very pleased that our local councillor, Mike Hallam, has offered the school a grant of £2k!

We have asked the children what they would like to spend it on, and have had some fantastic ideas in to us. We are now costing up a few of them before we make the final decision!

Local Neighbours & the Pirate Ship

Please could I request that you do not allow your children to play on the pirate ship before school? The children are climbing dangerously high on to the ledge and peering over our neighbour's garden fence, which is greatly disturbing their privacy and upsetting them. Thank you for your support

Parent's Evenings

Please be aware that we may need to postpone parent's evenings in the light of the ongoing situation. We shall be making a decision about this over the next week, and will let you know as quickly as we can.

Science Day!

We have all had lots of fun today celebrating all things Science. Here are a few images from the day so far:

Have a fantastic weekend!
